REPORT NO.4 – DECEMBER 2022

War in Ukraine: French solidarity operations

SOLIDARITÉ DE LA FRANCE AVEC L'UKRAINE
СОЛІДАРНІСТЬ ФРАНЦІЇ З УКРАЇНОЮ

« Since the beginning of Russia's invasion of Ukraine, France has stood alongside Ukraine, the Ukrainian people and the neighbouring countries which are heavily impacted by the conflict. **The State has allocated a budget of €200 million to meet urgent humanitarian needs and ensure essential infrastructure can be refurbished.** Since the start of the crisis, the people of France have shown exceptional solidarity, which has been reflected in the actions of local government bodies and companies for the victims of the Ukrainian war.

Thanks to the coordination provided through the EU Civil Protection Mechanism, our emergency humanitarian assistance is meeting the priority needs expressed by Ukraine and neighbouring countries. In response to the challenge of transporting assistance, the teams at the Crisis and Support Centre (CDCS) at the French Ministry for Europe and Foreign Affairs set up a **land, air and sea logistics bridge** to transport different types of equipment to address the emergency on the ground from the outset. Since the start of the conflict, some **40 operations** have enabled around **2,600 tonnes of equipment and humanitarian goods** to be delivered to local authorities, including emergency vehicles, prefabricated bridges, medicines, emergency shelters, ambulances and generators. Other operations will be conducted and Team France's action will continue.

I would like to thank all of you for your exceptional work, including the **1,700 local government bodies and dozens of companies** which made financial contributions to the support funds created by the CDCS in collaboration with the Delegation for the External Action of Local Government (DAECT). »

Stéphane Romatet
Director of the Crisis and Support Centre

Means for transporting assistance

Loading of the ro-ro ship, the Aknoul, provided by the CMA CGM Foundation, with more than 1,000 tons of humanitarian goods

Transporting assistance to Ukraine and neighbouring countries is a logistical challenge. Tonnes of humanitarian cargo have been sent through different means. In addition to multiple shipments sent by lorry, an air bridge has been set up in collaboration with the Ministry of the Interior. In the early days of the conflict, ten Dash8 flights delivered a part of the humanitarian assistance to Poland. Two cargo planes also transported emergency assistance from France to Moldova and Poland.

Since 17 March, most shipments have been sent by road, in trucks and semi-trailers. A maritime operation was set up for the first time in late September 2022.

French assistance actors

Sending humanitarian assistance to Ukraine and neighbouring countries is based on a system set up by the French Ministry for Europe and Foreign Affairs enabling it to centralize contributions from various institutional and private actors.

The French Ministry for Europe and Foreign Affairs has activated two support funds managed by the CDCS which help bring together financial contributions from local government and companies.

The CDCS has received support from:

- the Ministry of the Interior and Overseas France
- the Ministry of Agriculture and Food Sovereignty
- the Ministry of Health and Prevention
- the Ministry of the Economy, Finance and Industrial and Digital Sovereignty
- corporate foundations (CMA CGM Foundation, etc.), associations, NGOs, businesses and CEREMA

Activating the corporate support fund and the local government external action fund

With these funds, the CDCS can purchase emergency equipment (medicines, ambulances, generators, shelters, etc.)
